Please provide a brief description of the organization:

The secondary high school “Arturo Bianchini” was founded in the 1970s and dedicated to the historian and palaeographer born in Terracina and rewarded by ‘Accademia d’Italia in 1939. During the years, the school has always been able to face the training challenges of a territory that was rapidly changing its cultural identity.

The technical institute is situated in the center of the city and it consists of a two-story structure recently restructured according to the latest building and safety regulations and it is equipped with physical features that overcome architectural barriers, a great hall, an innovative digital library, a gymnasium and a multipurpose sports field, an athletics track on tartan, an amphitheater for performances, a wide car -parking and green areas.

There are also three computer labs, a chemistry lab, and each classroom is equipped with a LIM and a notebook for multimedia didactics.

The institute has a wired and wireless internet network, a photovoltaic system that grants energy autonomy.

The training offer of ITS Bianchini regards the study’s four areas: Administration, Finance and Marketing, Corporate Information Systems, Tourism, and Chemistry. The offer provides young people with legal-economic and scientific-technological training in line with the indications of the European Union. The mission of our Institute is to train itself to self-entrepreneurship, multilingualism, the use of digital teaching and the establishment of an active and aware citizenship. Besides, our Institute has several extra-curricular activities:

citizenship, a library for everyone (PNSD # 24), the psychologist at school, online newspaper "ilbianchini.it", the cultural exchange Italy-Russia, meetings with authors, school orientation, environmental education, food education and correct lifestyles, photographic laboratory, STEM laboratories, inclusion projects for BES / DSA students (assisted interventions with animals, listening desk, sports activities). In our Institute, it is possible to acquire the following certifications: EIPASS, Cambridge, Delf, Fit in Deutsch and Dele.

Thanks to the funding received from the European Union through the National Operational Programs, the Institute's educational offer has expanded with the #tuttiascuola project for inclusion and the fight against hardship; routes for adults and young adults; basic skills in Italian language, Mathematics, English, Foreign language; the strengthening of the alternating school-work courses; the expansion of global citizenship skills through five training modules in food education, food, and territory; well-being, correct lifestyles, physical education, and sport; environmental education; economic citizenship; respect for the diversity and active citizenship. Finally, our school has designed a Comenius project "My job in the European space".

Other school projects: Erasmus Young Guides (2018) and Be creative (2019) related to innovation, creativity, and entrepreneurship education through the two foreseen results "business idea development" and „business plan development mentoring”.

Please describe how the organisation will contribute to the dissemination and exploitation of the project results:

We will support the dissemination and the exploitation of the project aims, activities through our network and channels as training centre for the in service teachers at provincial level.
